Dear Mike & Bryn:

It's been amazing to hear the testimonies of people who have experienced healing and freedom from the ministry of Restoring Lives International. What's even more exciting is that the fruit is still coming as we continue to 'walk out' these same teachings!

The correlation between roots of sin with correlating sickness and oppression are so true. Having this teaching has been such a tool in our church to help others. We so appreciate the time, love, training and the pouring into us truths based on scripture that helped to empower us to not only take ground . . . but keep it!

Thank you so much for all that you and your team provided. We look forward to hearing more testimonies from your valuable ministry.

Blessings,
