Bipolar, Severe Depression, Epilepsy, High Blood Pressure, IBS, Diverticulitis, Asthma, emphysema, Brain tumor, Total Loss of Hearing In Left Ear. Chronic back, knee problems, arthritis from my neck to my toes, Diabetes Type II bitterness un-forgiveness, resentment, retaliation, anger, hate, violence and murder

In May, 2005, I attended the Milford conference. I sat there asking myself why I came. My two best friends brought me and they knew to pick me up so I wouldn't walk out. They had been talking to me about bitterness, un-forgiveness, and rejection, and how they can make you physically ill. I told them this was a crock of nonsense, but after my first conference, I found out different.

I had the following illnesses:

Bipolar, severely depressed, Epilepsy, High Blood Pressure, IBS which later turned into diverticulitis, asthma, which turned into emphysema, Brain tumor which after having it removed resulted in total loss hearing in my left ear. Chronic back pain because they removed L4 and L5 vertebrae, knee problems and arthritis from my neck to my toes, Diabetes Type II. I was a total mess.

During this time in my life, I was on twelve to thirteen pills a day. Four of them were for blood pressure, Tegretol for seizure meds, some kind of meds for asthma and an inhaler, Meds for my colon, and stomach and two different types of pain meds; one of them was Vicodin, Percocet, Prozac, and something for acid reflux disease. I was on Glucophage and another diabetic med and maximized both of them out. My blood sugar was 8.0. They wanted to start me on insulin and I said 'no way. I will go see my Jesus'. So I started to do the walk out and started to take care of myself by exercise and eating better and I was off of the meds within 6 to 8 months.

So, as the first night ended, I was so mad I could have spit fire, but I kept feeling drawn to come back. It was like a war inside of me. The second night was on Father's Love and I really thought these people were crazy until I went up to play their little game. Boy, my eyes started to open and I found that I had so much hate and bitterness toward my earthly father and mother. The anger and the heaviness were starting to leave and I felt better. Then they ministered about bitterness, and that was the big one for me. I

didn't realize how much **un-forgiveness, resentment, retaliation, anger, hate, violence and murder** I felt in my heart towards other people. Each night afterwards I was feeling better.

The **depression** I experienced was so great that I planned my suicide date for Dec 24, 2005. I picked this date because I knew this would hurt my father. I saved up a big bottle of pills to take all at once. Each day I was so miserable and I was in so much pain. The only thing I could think is how nice it would be to go to heaven and not have to deal with anything.

It was about 6 months after the first conference I joined the team and started to do my walk out daily. I dropped down to one blood pressure med. Then on May of 2006 the doctor's decided I didn't need the seizure medicine, so they asked me if I would like to stop taking the Tegretol, but the only thing I would have to do is not drive for six months. Boy was that a hard decision to make. But by God's grace I did it.

Shortly after this they took away my colon meds, and my acid reflux meds.

I was med free except for one blood pressure med.

The second conference I worked was in Dayton. God did a creative miracle that night. Bryn was up in front speaking over the body parts. She said someone is being healed in their left ear. I felt warmth inside my ear. Back in January, 2000, I was diagnosed with a brain tumor. They removed every nerve, all little bones, and the ear drum. I was totally deaf in the left ear. When I covered my right ear that night I heard Bryn speak. Around late June of 2006 I had a hearing test done and they said I am still deaf in that ear. I don't understand why it is not showing on the hearing test, but I know I can hear. It was the first time I heard since the brain surgery. I heard today, but it must be loud sounds for me to pick it up, praise God, I have an eardrum. Every conference I attend, Jesus restores more of my hearing. I can hear the dial tone on the phone if I have it all the way up and when it's quiet in the room. Praise God!!

After each conference, I receive some kind of healing. My taste buds were messed up due to the brain tumor. I am now able to taste anything. This Saturday I ate a piece of apple pie, and boy it tasted heavenly.

All my relatives on both sides of the family die early due to having a stroke. I never thought it would happen to me. But on Sept.17, 2007, I had a mild stroke at work. They took me to the hospital. I was in rehab for three weeks, and then was sent home to recover. I had weakness on my left side in my arm and leg and my leg would swell up. I had to walk with a walker for two months because my balance was so bad. I also had to sit down on a shower chair to take a shower with assistance.

The stroke affected the left side of my body including my brain. Since September, 2007 I have had to walk with a cane. But our God is in the healing business. I received my healing at the last conference in June, 2008. God restored my balance, and I am no longer using a cane. I have to do a walk out every day, but the peace and joy that I have received and the relationship that I have with my heavenly Father is wonderful. One of the most important things that I have received from this ministry is believing God is Good... and Devil is bad. So many people say that God did this to me and made me sick, but God doesn't make people sick. This is not in His character to make us sick. We have the power in us by the Holy Spirit to overcome sickness and diseases by standing on God's word. One scripture I found today as I was reading in the Word in 1 John 2:14 which says, "Because you are strong and the word of God lives in you, you have overcome the evil one".

Each day I must renew my mind with the Word. Praise God for this ministry. I am so glad that Mike and Bryn followed and obeyed the Lord to do what they are doing because God is setting me free and making me whole as well as so many others.
